

WALK OFF® MATS

Cotton Plus™

The Milliken Walk Off® Mats Cotton Revolution

Cotton Plus™ is the result of our commitment to continuous innovation and technological development.

The combination of cotton and micro fibres offers a whole range of new advantages: The well-known water absorption properties of cotton are improved whilst micro fibres retain dry dust, thus ensuring superior dust control performance. Moreover, the lifetime of the Cotton Plus™ mat is extended by about 40% compared with conventional cotton mats, due to the superior performance of the yarn construction. The colourfastness is significantly improved, thereby improving the mats' appearance retention. This means that a mat not only lasts longer, but also has superior appearance retention throughout its lifetime.

Rubber Backing

The Cotton Plus™ mat is manufactured with our long-lasting nitrile rubber backing based on our most recent innovation in rubber formulation. It is available with Gripper® or flat back.

Customer labelling is available on borders and on the back of the mat.

Technical Specifications

Product construction	Pile tufted of a mix of pre-dyed cotton and micro fibre yarns with a 100% nitrile rubber backing
Sizes in cm (ca.)	85x120, 85x150, 85x300, 115x180, 115x200, 115x240, 150x250
Fabric weight (ca.)	980 gms/m ²
Total weight (ca.)	2530 gms/m ²
Pile height	11.5 mm
Border thickness	1.8 mm
Energy® backing	Allows optimum elimination of water during extraction process (reduces/eliminates drying time)
Laundering	Please consult our Processing & Handling Guidelines
Warranty	Please refer to our written guarantee

All specifications are subject to change to meet the ongoing improvements and innovation of our products.

All specifications are according to ISO 9001 Quality certification and ISO 14001 Environmental certification.
